

SAFERAIL Academy

Your Training Center

expert in Railway Signalling Activities

Since its creation, SAFERAIL focused its strategy on developing internal skills, which led to the creation of SAFERAIL Academy.

SAFERAIL leads its employees through an initial and continuous training plan covering all the required technical and functional areas of the company.

Based on its expertise, the quality of its network and the trainings provided, SAFERAIL then expanded its training offer externally.

Safety, Fairness, Quality

SAFERAIL Academy is culturally steeped in the values of SAFERAIL, fully oriented towards customer satisfaction.

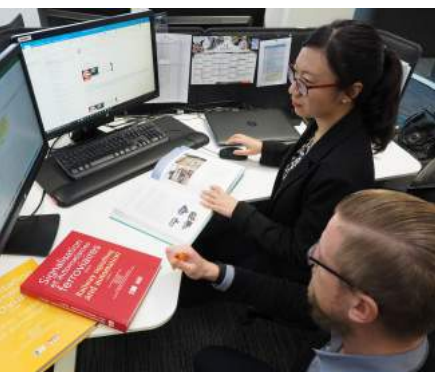

Estelle ROUSSEL, SAFERAIL Academy Manager

Training center accredited by the EPSF

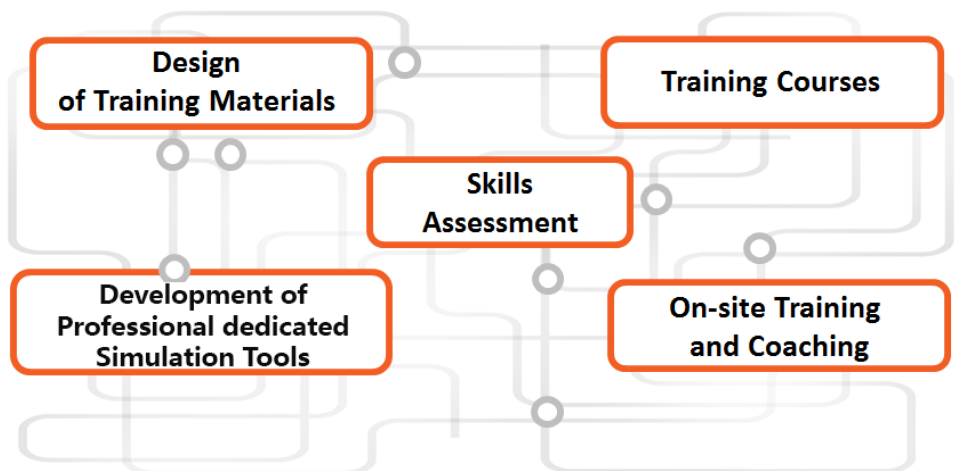

SAFERAIL is declared as a training organization by the DIRECCTE under the number 52 44 07 195 44.

Since June 2014, the Training Center has been approved by the EPSF, the Public Railway Safety Institution, proof that the trainings provided meet the requirements of the national decrees of 30 July 2003 and 07 May 2015.
